CSG South Leadership Programs

Contribution and Support:

The CSG South Leadership Programs provide valuable opportunities for individuals in public service to develop and expand their skills. Leadership development training is available to elected and appointed state officials and their staff through The Center for the Advancement of Leadership Skills (CALS) and The Staff Academy for Governmental Excellence (SAGE).

With the support of contributors and partners, CSG South aims to enhance our Leadership Programs by allowing more state members to participate, incorporating additional site visits, and inviting notable subject matter experts for presentations or technical assistance.
